

Far Away

music and lyrics: rainer escheberg

**I once met a woman
And, ooh, that girl was nice
It didn't take us long
to break the ice
No, no**

**A couple of days later
Ooh, that girl was gone
And still I'm asking why and
What went wrong**

**She seemed to be a lover
Ooh, she was so cute
And the love we gave
Was spreading good mood
Yeah, yeah**

**Then a change did happen
We both had to go
Where are you my babe
I need you so**

**Where have you been lately
You're so far away
Was it that we both
Just couldn't stay
Hey, hey**

**Will you ever come back
Will you stay with me
All I want is you
My Baby**

**I once met a woman
And, ooh, that girl was nice
It didn't take us long
to break the ice**

**Will you ever come back
Will you stay with me
'cause all I want is you
My Baby**

**All I want is you
My Baby**

**All I want is you
My Baby**
