

**it's crazy (but it's true)**

**music and lyrics by rainer escheberg**

**why can't it be  
we're together in harmony**

**why is it always the same  
we cannot play the game**

**why can't it be  
we're together in unity**

**why is it always the same  
we cannot play this game**

**then you said "good-bye"  
and you told no lie  
it's crazy, but it's true**

**then you had to go  
and it hurts me so  
it's crazy, but it's true**

**why can't it be  
we're together in harmony**

**why is it always the same  
we cannot play the game**

**why can't it be  
we're together in unity**

**why is it always the same  
we cannot play this game**

**then you closed the door  
i felt so unsure  
it's crazy, but it's true**

**then you walked away  
left me here to stay  
it's crazy, but it's true**
